

Ask your child to choose their favourite spring picture below. Talk to them about it to develop their knowledge and use of language. Ask them to write a simple sentence about it, remembering to use their 'robot arms' to segment to spell and to put a finger space between each word. Remind your child to start their sentence with a capital letter and put a full stop at the end. Some children might like to choose 1 or 2 more of the pictures to write a sentence about.
